

THE MOBILE SECURITBOX

Model: SB13 - 1 Boxes transport trailer

With this specially designed and user-friendly mobile SECURITBOX trailer you can transport any of the Securiboxes to the desired location.

We have the trailer for one or two box variants in our assortment. It can be attached to cars and vans. The transporter is a unique transport concept, realized in hot galvanized metal on a European chassis with brakes. This trailer is suitable for all European countries and is an indispensable tool for all Securibox owners.

Of course it is CE certified and has an EC declaration of conformity.
