

THE MOBILE SECURITBOX Modell: SB6- BASIC

The Mobile Securitbox is specially designed to be compatible with all surveillance devices.

It offers enough space to safely store all your electronic or electrical devices in the vandal-proof Securitbox. Inside there are prefabricated mounting extinguishers for various standardized distribution boxes. Space is provided for up to 4 batteries(accumulator) with or without protective covers.

Our SB6- Basic series is equipped with a door, 2 locks and open roof.

Lettering "SECURITBOX" illuminable.
